Do you anticipate any schedule changes throughout the school year for sports or activities? If so, please specify.

How are students assigned to tutoring times?

I keep a working list of current students listed in the order in which they started working with me. I give first scheduling priority to the students who have worked with me the longest, and then work my way down the list offering remaining time slots to the more recently added students. If you are a new student, you will be offered the remaining time slots once all current students have been assigned. If your request cannot be accommodated, you will be added to the waiting list and contacted if space becomes available.

Small Group Classes:

There are SAT and math small group classes scheduled for the school year. Math small group classes are a “drop-in” class where students can choose to attend as often as needed. Sign up from week to week on my website: www.alignedtestprep.com . Please let me know if you are interested in more information about our SAT and PSAT small group classes.
